

## Hippie Blessing

*Occasionally it is great to have a Sunday off from leading worship and listen to someone else's learned sermon. But it can also be dangerous as it can set my mind spinning off in all sorts of directions that the preacher probably never intended. On this particular Sunday after Christmas I was taken by the preacher's description of the wise men as being slightly alternative and hippie-like. I'm sure the rest of the sermon was very insightful but the idea of the three wise hippies completely caught me. So the next Sunday, which was Epiphany we all had great fun exploring the idea of the three wise hippies, and rediscovering values of peace, love and understanding.*

So continue on your journey

Seeking the peace that embraces all the peoples of the earth

Seeking the love that is found embodied in the birth of a baby

And seeking the understanding of yourself as you journey with God.
