

We Are Not Alone

We are not alone this morning
We meet with one another

We are not alone this morning
We meet with those who have gone before us

We are not alone this morning
We meet with those who will follow us in this place

We are not alone this morning
**We meet with sisters and brothers across the world
in every time
and every place**

We are not alone this morning
**We meet with the living God
Alleluia!**
