

## Everyday Miracles

The young green leaves of trees unfurling into spring  
Parents meeting in the park after a winter behind doors  
New neighbours moving in bringing a terrace to life  
The smell of BBQs wafting across back yards

**We give you thanks for the everyday miracles  
touching everyday lives.**

A new health centre opening for its first clinic  
The aroma of essential oils inviting relaxation  
The laughter and fun of a not so gentle exercise class  
The timely loan of the Credit Union easing the crisis.

**We give you thanks for the everyday miracles  
touching everyday lives.**

The gradual building of trust between doctor and patient  
The friendly support of district nurse or health visitor  
The rehabilitation into home and community of a long stay patient  
The recovery from surgery and hope of a return to a more normal life

**We give you thanks for the everyday miracles  
touching everyday lives.**

A woman sewing fabric into clothing for people in need  
A community mourning the loss of one of their own  
People brought together in time of tragedy  
Hope rising in an upstairs room

**We give you thanks for the everyday miracles  
touching everyday lives.**
