

Garden and Desert

Many Biblical stories seem to be set in gardens or deserts – gardens seem to be the place for playing and exploring and deserts the place for contemplation and testing. This call to worship contrasts the two but also looks at worship as the place for being together, reflecting and creating.

Come
join me in the garden
explore
play
laugh
delight

Come
join me in the desert
struggle
confess
contemplate
forgive

Come
join me in worship
commune
reflect
challenge
create

**We come
to the God made flesh among us
to offer our curiosity
our confession
our community
our celebration**
